New Product Announcement

Dear valued Customer,   January 20, 2013

Cellocator is proud to announce the formal release of the FW version 31p for the Cellocator Cello-F and 31n for the CR200 Family.

FW V31p for the Cello-F

FW V31p for the Cello-F is a collection of features and improvements, suggested by Cellocator customers or initiated internally.

You are welcome to review the FW31p for Cello release notes for more information.

Appropriate files and documents (such as FW Upgrade Files, PL files, Programming Manual, Wireless and Serial Protocols and Full Package) have been updated to the support section of Cellocator web site.

FW V31n for the CR200 family

FW V31n for the CR200 Family presents further improvements for the CR200 Family.

You are welcome to review the CR200 Release Notes for more information.

Appropriate files and documents (such as PL files, Programming Manual, Wireless and Serial Protocols and Full Package) have been updated to the support section of Cellocator web site.

For pricing and delivery information, you are most welcome to contact your appropriate sales manager.

Please note that the above links require access to our Partner Login section on our web site.

Should you have any questions on the new FW versions, you are more than welcome to contact the product management department or your appropriate sales manager.
