

Dear Valued Customer,

PCN No. 0119

PCN Type New Product and EOL Announcement

Product AN0048 External GNSS Antenna and AN0043 External GPS Antenna

Date November 15, 2014

Change Notification Description

This PCN is to notify customers about the new AN0048 External GNSS Antenna, which replaces the AN0043 External GPS Antenna.

External GNSS Antena Information

The external GNSS antenna is an active antenna allowing the extension of the GNSS (GPS and GLONASS) antenna range from the Cellocator unit installation point. The new External GNSS Antenna is fully compatible with the External GPS Antenna. New product highlights include the following:

- Support of GPS and GLONASS frequencies
- Support for legacy Cello family units (Cello-F) and Cello-GNSS family units (Cello-IQ and Cello-CANiQ)
- Support of patch and magnetic mount
- 3 meter cable length
- Connects to the unit via standard SMA connector

You are welcome to review the [External GNSS Antenna Technical Specifications](#) for more information. Please note that the above link requires access to the [Knowledge Base Login](#) section on our website.

Sales, Service and Support

According to Cellocator policy, the End of Service (RMA) Date of the AN0043 External GPS Antenna will be 3 years from shipment date, and End of Customer Support Date will be 5 years from shipment date.

For pricing and delivery information, please contact your appropriate sales manager.

Should you have any questions regarding this PCN or the External GNSS Antenna, you are more than welcome to contact the Product Management department or your appropriate sales manager.

Kind Regards,

Natan Degani
