

Greetings! ,

PCN No. 0129

PCN Type: EOL Announcement

Product: 71x-00318 Cello-CANiQ Generic Harness

Date: June 6, 2016

Change Notification Description

This PCN is to notify customers about the EOL of the **71x-00318 Cello-CANiQ Generic Harness**, which is replaced by the **711-00299 Cello 17 wires harness** without mold; alternatively, the **711-00315 Cello 17 wires harness with mold** can also be used as a replacement.

Change Information

The Cello-CANiQ Generic Harness was introduced with the Cello-CANiQ and was the only harness supporting the special requirements (shielded twisted pair) for CAN Bus interfacing. Today, the two replacing harnesses mentioned above also support a CAN Bus interface and there is no longer a need for a special harness for the Cello-CANiQ.

Please note that the wires' colors of the replacing harnesses are different from the Cello-CANiQ Generic Harness.

You are welcome to review the [Harness Selection Wizard](#) for more information. Please note that the above link requires access to the [Knowledge Base Login](#) section on our website.

Sales, Services and Support

Cellolocator will continue shipping the **71x-00318 Cello-CANiQ Generic Harness** till its stock runs out, which is expected by July 1, 2016.

For pricing and delivery information, please contact your appropriate sales manager.

Should you have any questions regarding this PCN, you are more than welcome to contact the Product Management department or your appropriate sales manager.

Kind Regards,

Natan Degani
