

Greetings! ,

PCN No. 0132
PCN Type: Engineering Change
Product: CelloTrack
Date: January 17, 2016

Change Notification Description

This PCN is being issued to notify customers about a modified O-ring for the CelloTrack enclosure.

Change Information

The new O-ring is thicker than the one it replaces and thus the closing procedure for the CelloTrack enclosure has changed. The eight screws of the CelloTrack should be closed with torque 5 [0.5Nm], instead of 4, in diagonal order, as shown in the image below.

Cellocator has tested the modified product and validated that there is no impact on performance.

Sales, Services and Support

The change has been implemented from January 2017.

Should you have any questions regarding this PCN, you are more than welcome to contact the Product Management department or your appropriate Sales Manager.

Kind Regards,

Natan Degani
